

DumperTrack

Smart Management Software for Transport & Dumper Businesses

Product Overview · May 2026

What is DumperTrack?

DumperTrack is a simple, easy-to-use business management app designed specifically for transport companies, dumper operators, and fleet owners. Whether you run one truck or a fleet of twenty, DumperTrack helps you keep track of every trip, every rupee earned, every expense spent, and every vehicle you own — all in one place.

No more paper registers. No more Excel confusion. Just open the app, log your trips, and let DumperTrack handle all the calculations automatically.

Who Is It For?

■ Transport Firm Owners

Get a complete view of your business — income, expenses, profit, vehicles, and team performance — all on one screen.

■ Partners & Co-owners

Log daily trips, track personal earnings, and see your own profit without waiting for end-of-month calculations.

■ Multi-Firm Operators

Running more than one business? DumperTrack supports multiple firms, each with their own separate data, partners, and vehicles.

Key Features

Trip Management

- Record every trip with client name, driver, vehicle, location, and material carried.
- Income is calculated automatically the moment you enter number of trips and rate.
- Each entry is locked after saving — no accidental edits, full data integrity.
- Track how much the client has paid and how much is still pending.

Expense Tracking

- Define your own expense types — Diesel, Driver Wages, Toll, or anything else.
- Enter actual expense amounts per trip — every cost is accounted for precisely.
- Net profit is calculated instantly: Total Income minus all expenses.

Vehicle Fleet & EMI Tracking

- Maintain a complete register of vehicles: Dumper, Truck, JCB, Loader, Tractor, and more.
- Add EMI details for financed vehicles — monthly instalment amount, loan tenure, and bank note.
- Instantly see your total monthly EMI burden, outstanding loan balance, and loan completion status.
- Filter vehicles by type or EMI status (Active / Completed / No EMI).

Credit & Debit Transactions

- Record money coming in (advance payments, refunds, investments) as Credits.
- Record money going out (repairs, salaries, insurance, loan repayments) as Debits.
- View partner-wise breakdown — who received what and who spent what.
- Supports Cash, UPI, Bank Transfer, Cheque, and Card payment modes.

Smart Filters Across Every Module

- Trips: Search by client name, filter by partner, vehicle, or custom date range.
- Transactions: Filter by Credit or Debit, by partner, or by date range.
- Vehicles: Filter by vehicle type or EMI status in one click.
- Find exactly what you need instantly — no scrolling through hundreds of old entries.

Dashboard — Everything at a Glance

The moment you log in, the Dashboard shows you a live summary of your business:

Total Income	All money earned from trips.
Total Expenses	All costs deducted across trips.
My Net Profit	Your personal share — trip profits + credits – debits.
Total Trips	Number of trip entries logged across the firm.
Top Clients	Which clients are bringing in the most revenue.
Recent Entries	The latest trip logs shown at a glance.

Balance Sheet

The Balance Sheet gives you the complete financial picture of your firm in one place: Gross Income, Total Expenses, Net Profit, income broken down client-by-client, expense breakdown by category, and each partner's individual contribution. Perfect for monthly reviews or sharing with an accountant.

Partner Management

Add as many partners as your firm needs. Each partner has their own login and logs trips and transactions under their own name. Accountability is built in — you always know who entered what. The Admin manages all firms and partners from a single control panel.

Why Choose DumperTrack?

✓ No Accounting Knowledge Needed

Everything is in plain language. If you can fill a paper register, you can use DumperTrack.

✓ Real-Time Profit Calculation

The moment you enter a trip, your profit is calculated instantly — no manual maths required.

✓ Safe & Tamper-Proof Records

Once a trip is saved, it cannot be deleted or changed. Your records are always trustworthy.

✓ Works on Mobile & Desktop

Access DumperTrack from your phone, tablet, or computer — anywhere, anytime.

✓ Cloud-Backed Data

Your data is stored securely in the cloud. Change your phone or device — your records stay safe.

✓ Supports Multiple Businesses

Manage multiple transport firms under one login, with fully separated data for each.
